

## ANTIFOAM PS 3

■ Antifoaming effect  
■ Defoaming effect  
■ Compatibility with gypsum

■ Fragmentation effect  
■ Compatibility with cement

### PRESENTATION

**Antifoam PS 3** is a powdered defoamer based on silicone oils and polyglycols.

### ADVANTAGES

It is very effective in the fragmentation of the air bubbles.

It allows getting a homogeneous surface without holes or stains.

It is compatible with most binders and superplasticizers.

### PACKAGING

25 kg paper bags.

Self-levelling screeds realized with our **defoamers**
