

ANTIFOAM PS 201

OVERVIEW

Antifoam PS 201 is a defoamer in powder form based on silicone oils surfactant polymers, and ecological oils.

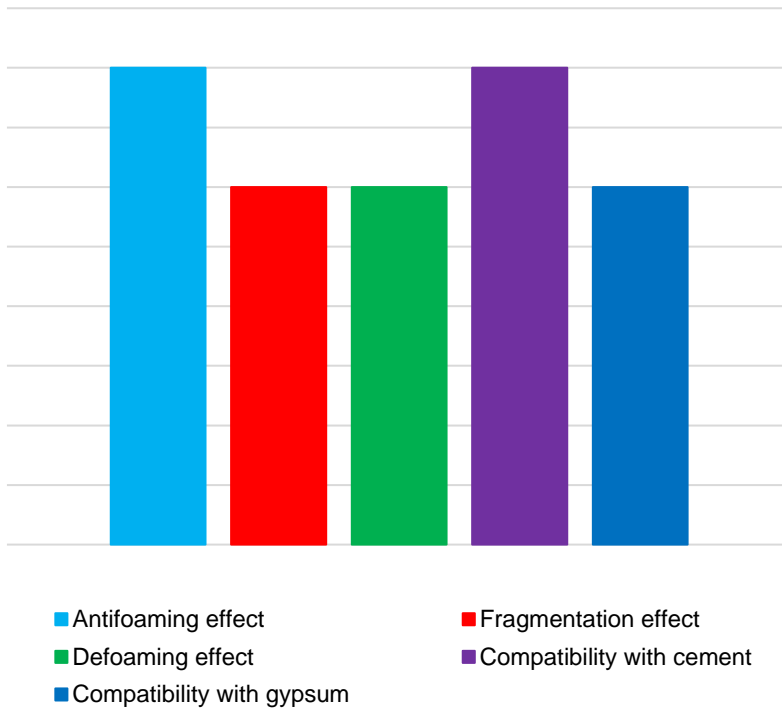

ADVANTAGES

It is an ecological product with no VOC emission (*Eimicode EC 1 Plus and French VOC Regulation A+*).

It eliminates effectively and rapidly the air already during the mixing phase, and at the same time it allows to get a regular surface with no holes or spots.

PACKAGING

25 kg paper bags.

Antifoaming performance of **Antifoam PS 201** in a plaster mortar for internal use at different dosages
